Urban culture is a driver of change. Urban heritage is an asset for socio economic development. Landscape heritage is a resource for territorial development. Metropolis is a heritage for the 21st century. How can urban culture and heritage foster the implementation of the NUA and SDGs? How can international networks on Culture, Heritage, Landscape, Cities and Planning take the lead to deliver adequate guidelines and support for localizing Goal 11.4 through operational projects? How could the international experiences on heritage, landscape and culture be mobilized to develop new tools and innovation for urban management? How are culture and heritage enablers for social inclusiveness, economic development and environmental sustainability?

Pilot
Mr Eric Huybrechts, IAU/MTPA, ICOMOS, ISOCARP
